NINE MILE DISTRIBUTION SYSTEM MEETING
Minutes

February 28, 1984
Price, Utah

The meeting was called to order at 2:45 p.m. by Mark Page, Price Office area engineer. There were only two water users in attendance. Mr. Page acted as chairman and indicated that all indications pointed to a good water year for 1984 with snow pack for the area at approximately 160% of average. He also stated that the demand for water on the system has decreased because of the declining number of farmers in the area.

The minutes of the 1983 meeting were approved as read by Mr. Page.

The financial statement was read by Mr. Page indicating that there was \$1212.77 left in the reserve account at years end.

Mr. Page announced that Don Norseth had retired as of January 1, 1984 and that Rick Hall had been named to replace him.

Mr. Page suggested that there was no real need for a commissioner on the system for 1984, but that if problems arise, that Sharp Bryner be contacted on the upper system and the lower users could notify the Price office of problems developed on the lower end. This is because of the high water year and in short years there would be a definite need for a commissioner.

A budget was set for 1984, the same as was approved for 1983, with no assessments levied. If expenditures are needed for 1984, the monies would come from the reserve account.

A discussion followed and notes were made on changes to the mailing list for 1984.

With no other business, the meeting adjourned at 3:10 p.m.

Attendees:

 Earl Staker
Jerry L. Bronicel
Mark Page
Sharp Bryner
Nancy Motte
